RELEVANT EXPERIENCE

Freelance Web Developer

June 2022 – Present

Dasmarinas City, Cavite

- Assisting college students in their capstone project such as troubleshooting technical issues and integrating other features.
- Develop and implement the client's vision by creating user-friendly interfaces with responsive capabilities.

PERSONAL PROJECTS

Cafe2628 (HTML, CSS, Javascript, PHP)

- Collaborate with my partner (back-end developer) to translate a figma design into a captivating coffee shop website, ensuring a seamless user experience and visual consistency. We used libraries such as bootstrap and jquery.

School Online Appointment System (Bootstrap, Javascript and PHP)

- Build a robust full-stack solution, including front-end interfaces for calendar and appointment scheduling, back-end functionalities for managing appointments and sending notifications.

Restaurant Locator (Next JS and Tailwind CSS)

- Develop the application's front-end and back-end components, integrating map functionalities using Google Place API, discover nearby dining options based on food type and user reviews.

GPA Wizard Calculator (Next JS and Tailwind CSS)

- Develop a client-side GPA calculator application, enabling students to easily compute their GPA by inputting subject's name, course grades and credit hours.
